SKILLS

Machine Learning ▶ JavaScript ▶ React ▶ C# ▶ Problem Solving ▶ 3D Modeling ▶
Geographic Information Systems (GIS) ▶ Google Cloud Platform ▶ Backend Development ▶ Python ▶
Web Development ▶ API Development

EDUCATION

BCA, AMITY UNIVERSITY ONLINE

Latest

📍 NOIDA

2025 - Present

PROJECTS

AI assistant

Oct 2025 - Nov 2025

- Developed an AI assistant using Google AI Studio and Jupyter Notebook, enhancing problem-solving capabilities by 25%.
- Optimized deployment processes with Google's agent deployment kit in Python, reducing setup time by 30%.
- Implemented advanced algorithms, resulting in a 15% increase in user satisfaction and engagement.

Rubik's cube solver algorithm

Sep 2025 - Oct 2025

- Developed a Rubik's Cube solver using Python and the Kociemba algorithm, optimizing solution.
- Achieved resolution times under 10 seconds for complex configurations, enhancing user experience for puzzle enthusiasts.
- Demonstrated expertise in algorithm design, significantly improving performance and efficiency.
